driven by a 104.1% growth in revenues generated from our overseas business, accounting for 41.0% of the group's net revenues compared to 22.8% in the first half of 2022, as we continue to successfully execute our globalization strategy. During the second quarter, we were glad to launch the grand opening of our new headquarter, Noah Wealth Centre, which provides a client-centric private banking experience for Noah's global clients. Since 2019, we wended down all of our domestic non-standardized single counterparty private credit products, including domestic residential real estate funds, which was proven to have effectively safeguarded our clients' wealth amidst the recent challenges faced by this asset class. Our continued devotion in strengthening investment research capabilities and shield our clients' hard-earned capital through optimized asset allocation advice is what distinguish us as a trusted advisor for our clients."
