FIRST QUARTER 2012 FINANCIAL RESULTS

Net Revenues

Net revenues for the first quarter of 2012 were US\$16.8 million, a 10.8% increase from the corresponding period in 2011, due to an increase in net revenues in recurring service fees, which were offset by a decline in net revenues in one-time commissions for the first quarter of 2012.

Net revenues from one-time commissions for the first quarter of 2012 were US\$9.2 million, a 19.0% decrease from the corresponding period in 2011. The year-over-year decrease was mainly due to lower average commission rate for short-term fixed income products.

Net revenues from recurring service fees for the first quarter of 2012 were US\$7.6 million, a 97.8% increase from the corresponding period in 2011. The year-over-year increase was mainly due to the cumulative effect of private equity fund and securities investment fund products distributed previously.

Operating Margin

Operating margin for the first quarter of 2012 was 15.7%, as compared to 43.6% for the corresponding period in 2011. The year-over-year decrease in operating margin for the first quarter of 2012 was primarily due to an increase in operating cost and expenses resulting from the Company's expansions outpacing its net revenue growth.

Operating cost and expenses for the first quarter of 2012, including cost of revenues, selling expenses, G&A expenses and other operating income, were US\$14.1 million, a 65.7% increase from the corresponding period in 2011.

Cost of revenues for the first quarter of 2012 totaled US\$3.9 million, a 47.6% increase from the corresponding period in 2011. The year-over-year increase for the first quarter of 2012 was primarily due to increases in compensation expenses paid to relationship managers mainly as a result of the expansion of the Company's sales force.

Selling expenses for the first quarter of 2012 were US\$6.1 million, a 79.1% increase from the corresponding period in 2011. Selling expenses as a percentage of net revenues for the first quarter of 2012 was 36.5%, as compared to 22.6% for the corresponding period in 2011. The year-over-year increase for the first quarter of 2012 was primarily due to increases in personnel expenses, rental expenses and client service fees as a result of the Company's network expansions.

G&A expenses for the first quarter of 2012 were US\$4.2 million, a 67.5% increase from the corresponding period in 2011. G&A expenses as a percentage of net revenues for the first quarter of 2012 was 25.2%, as compared to 16.6% for the corresponding period in 2011. The year-over-year increase for the first quarter of 2012 was primarily due to increases in employee compensation expenses attributable to G&A expenses as a result of the Company's expansion.

Income Tax Expenses

Income tax expenses for the first quarter of 2012 were US\$1.0 million, a 49.8% decrease from the corresponding period in 2011. The year-over-year decrease was primarily due to a decrease in taxable income.

Net Income

Net income attributable to Noah shareholders for the first quarter of 2012 was US\$2.7 million, a 52.6% decrease from the corresponding period in 2011. **Net margin** for the first quarter of 2012 was 16.3%, as compared to 38.0% for the corresponding period in 2011. **Income per basic and diluted ADS** for the first quarter of 2012 were both US\$0.05, as compared to US\$0.10 for the corresponding period in 2011.

Non-GAAP net income attributable to Noah shareholders for the first quarter of 2012 was US\$3.7 million, a 40.5% decrease from the corresponding period in 2011. **Non-GAAP net margin** for the first quarter of 2012 was 21.8%, as compared to 40.6% for the corresponding period in 2011. **Non-GAAP income per diluted ADS** for the first quarter of 2012 was US\$0.06, as compared to US\$0.11 for the corresponding period in 2011.

Balance Sheet and Cash Flow

As of March 31, 2012, the Company had US\$123.1 million in cash and cash equivalents, a decrease from US\$136.9 million as of December 31, 2011. In the first quarter of 2012, the Company generated US\$0.7 million in its operating activities, received US\$4.8 million from the maturity of fixed-term deposits, invested US\$18.4 million mostly in fixed income products and used US\$0.4 million to acquire property and equipment.

2012 FORECAST

The Company estimates that non-GAAP net income attributable to Noah shareholders for the full year 2012 is expected to be in a range of US\$30.0 million and US\$35.0 million, representing a year-over-year increase in the range of 14.8% and 34.0%. This estimate reflects management's current business outlook and is subject to change.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized certain amounts of expenses for the restricted shares and share options in the periods presented and expects to incur share-based compensation charges in the future. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
