[2] "Total number of registered clients" includes clients registered with Noah Upright (Shanghai) Fund Investment Consulting Co., Ltd., Noah's mutual fund distribution business, which began operations in the second quarter of 2012.

[3] "Active clients" refers to those registered clients who purchased wealth management products distributed by Noah during any given period. Active clients include clients who have purchased mutual fund products that were distributed since the second quarter of 2012.

FIRST QUARTER 2013 FINANCIAL RESULTS

Net Revenues

Net revenues for the first quarter of 2013 were US\$32.6 million, a 94.3% increase from the corresponding period in 2012, due to increases in both one-time commission revenues and recurring service fees for the first quarter of 2013.

Net revenues from one-time commissions for the first quarter of 2013 were US\$15.4 million, a 68.1% increase from the corresponding period in 2012. The year-over-year increase for the first quarter of 2013 was mainly due to an increase in transaction value and, to a lesser extent, an increase in average commission rate.

Net revenues from recurring service fees for the first quarter of 2013 were US\$16.4 million, a 115.2% increase from the corresponding period in 2012. The year-over-year increase was mainly due to the cumulative effect of private equity funds previously distributed by the Company and an increase in assets under management by the Company since the second half of 2012.

Operating Margin

Operating margin for the first quarter of 2013 was 36.4%, as compared to 15.7% for the corresponding period in 2012. The year-over-year increase for the first quarter of 2013 was driven by growth of net revenues exceeding those in operating cost and expenses.

Cost of revenues for the first quarter of 2013 totaled US\$6.0 million, a 55.9% increase from the corresponding period in 2012. Selling expenses for the first quarter of 2013 were US\$7.9 million, a 29.2% increase from the corresponding period in 2012. Selling expenses as a percentage of net revenues for the first quarter of 2013 was 24.3%, as compared to 36.5% for the corresponding period in 2012. The year-over-year increases for the first quarter of 2013 was primarily due to increases in employee compensations and share-based compensations as the Company strengthened its selling and marketing functions.

G&A expenses for the first quarter of 2013 were US\$6.8 million, a 61.8% increase from the corresponding period in 2012. G&A expenses as a percentage of net revenues for the first quarter of 2013 was 20.9%, as compared to 25.2% for the corresponding period in 2012. The year-over-year increases for the first quarter of 2013 was primarily due to increases in personnel expenses, professional consulting fees and rental expenses.

Other operating income for the first quarter of 2013 was US\$31.0 thousand, as compared to US\$52.8 thousand for the corresponding period in 2012. Other operating income is government subsidies received in the PRC from local governments for general corporate purposes.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
