THIRD QUARTER 2013 FINANCIAL RESULTS

Net Revenues

Net revenues for the third quarter of 2013 were US\$41.5 million, a 61.0% increase from the corresponding period in 2012, due to increases in both one-time commission revenues and recurring service fees for the third quarter of 2013.

Net revenues from one-time commissions for the third quarter of 2013 were US\$17.7 million, a 16.5% increase from the corresponding period in 2012. The year-over-year increase for the third quarter of 2013 was mainly due to an increase in transaction value.

Net revenues from recurring service fees for the third quarter of 2013 were US\$21.5 million, a 111.7% increase from the corresponding period in 2012. The year-over-year increase was mainly due to an increase in assets under management by the Company since the second half of 2012 and the cumulative effect of private equity funds previously distributed by the Company.

Operating Margin

Operating margin for the third quarter of 2013 was 41.0%, as compared to 35.9% for the corresponding period in 2012. The year-over-year increase for the third quarter of 2013 was driven by growth of net revenues exceeding those in operating cost and expenses.

Cost of revenues for the third quarter of 2013 totaled US\$8.9 million, a 74.1% increase from the corresponding period in 2012. The year-over-year increase for the third quarter of 2013 was primarily due to an increase in compensation paid to relationship managers as a result of the increase in transaction value, and incremental costs from repositioning of certain branch managers, whose compensations in their client facing roles are now accounted for in cost of revenues, instead of selling expenses.

Selling expenses for the third quarter of 2013 were US\$10.1 million, a 39.8% increase from the corresponding period in 2012. Selling expenses as a percentage of net revenues for the third quarter of 2013 was 24.4%, as compared to 28.1% for the corresponding period in 2012. The year-over-year increases for the third quarter of 2013 was primarily due to increases in employee compensations and general marketing fees as the Company strengthened the selling and marketing functions.

G&A expenses for the third quarter of 2013 were US\$9.5 million, a 81.9% increase from the corresponding period in 2012. G&A expenses as a percentage of net revenues for the third quarter of 2013 was 23.0%, as compared to 20.3% for the corresponding period in 2012. The year-over-year increases for the third quarter of 2013 was primarily due to increases in personnel expenses, professional consulting fees and office expenses.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
