

Noah Holdings Limited Announces Strategic Investment in Digital Yield Fund

Aug 27, 2025

SHANGHAI, Aug. 27, 2025 /PRNewswire/ -- Noah Holdings Limited ("Noah" or the "Company") (NYSE: NOAH and HKEX: 6686), a leading and pioneer wealth management service provider offering comprehensive one-stop advisory services on global investment and asset allocation primarily for global Chinese high-net-worth investors, today announced that on August 27, 2025, a subsidiary of the Company committed to subscribing for certain interests in a private credit digital yield fund with a total capital commitment of US\$50 million, subject to the terms and conditions provided in the subscription documents. This digital yield fund is managed by Olive, the overseas asset management arm of Noah, and is the first stablecoin yield fund established by Olive in cooperation with Coinbase.

Guided by its primary treasury objective of enhancing returns on the basis of capital preservation, the Company's subscription in this digital yield fund represents a strategic allocation to a "cash management plus" product. The investment employs a dual-allocation strategy, focusing primarily on generating stable income from a risk-defined credit portfolio, while obtaining controlled and ancillary exposure to the digital asset ecosystem for the purposes of long-term diversification and capability-building.

Ms. Jingbo Wang, Co-founder and Chairwoman of Noah, commented, "This investment reflects our commitment to prudent capital allocation, portfolio diversification, and capturing growth opportunities in emerging sectors. It aligns with our long-term objectives of delivering consistent, risk-adjusted returns for our shareholders."
