SECOND QUARTER 2012 FINANCIAL RESULTS

Net Revenues

Net revenues for the second quarter of 2012 were US\$19.1 million, an 18.1% decrease from the corresponding period in 2011, due to a decline in net revenues in one-time commissions, which were partially offset by an increase in net revenues in recurring service fees for the second quarter of 2012.

Net revenues from one-time commissions for the second quarter of 2012 were US\$10.2 million, a 43.2% decrease from the corresponding period in 2011. The year-over-year decrease was primarily due to declines in both transaction value and average commission rate.

Net revenues from recurring service fees for the second quarter of 2012 were US\$8.7 million, a 65.2% increase from the corresponding period in 2011. The year-over-year increase was mainly due to the cumulative effect of private equity fund and securities investment fund products distributed previously.

Operating Margin

Operating margin for the second quarter of 2012 was 37.7%, as compared to 45.3% for the corresponding period in 2011. The year-over-year decrease in operating margin for the second quarter of 2012 was primarily due to a decline in net revenues and an increase in expenses related to the expansions of coverage network and development of the mutual fund distribution business and the overseas business.

Operating cost and expenses for the second quarter of 2012, including cost of revenues, selling expenses, G&A expenses and other operating income, were US\$11.9 million, a 6.6% decrease from the corresponding period in 2011.

Cost of revenues for the second quarter of 2012 totaled US\$4.2 million, a 4.2% decrease from the corresponding period in 2011. The year-over-year decrease for the second quarter of 2012 was primarily due to a decrease in product-specific client meetings and other events as the Company distributed less wealth management products.

Selling expenses for the second quarter of 2012 were US\$6.4 million, a 33.6% increase from the corresponding period in 2011. Selling expenses as a percentage of net revenues for the second quarter of 2012 was 33.3%, as compared to 20.4% for the corresponding period in 2011. The year-over-year increase for the second quarter of 2012 was primarily due to increases in personnel expenses, rental expenses and client service fees as a result of the Company's network expansions.

G&A expenses for the second quarter of 2012 were US\$4.2 million, a 15.7% increase from the corresponding period in 2011. G&A expenses as a percentage of net revenues for the second quarter of 2012 was 22.1%, as compared to 15.6% for the corresponding period in 2011. The year-over-year increase for the second quarter of 2012 was primarily due to increases in share-based expenses and travel expenses attributable to G&A expenses as a result of the Company's expansion.

Other operating income for the second quarter of 2012 was US\$2.9 million, as compared to US\$56.7 thousand for the corresponding period in 2011. Other operating income is government subsidies received in the PRC from local governments for general corporate purposes.

Income Tax Expenses

Income tax expenses for the second quarter of 2012 were US\$2.3 million, a 30.0% decrease from the corresponding period in 2011. The year-over-year decrease was primarily due to a decrease in taxable income.

Net Income

Net income attributable to Noah shareholders for the second quarter of 2012 was US\$6.2 million, a 30.7% decrease from the corresponding period in 2011. **Net margin** for the second quarter of 2012 was 32.5%, as compared to 38.4% for the corresponding period in 2011. **Income per basic and diluted ADS** for the second quarter of 2012 were both US\$0.11, as compared to US\$0.16 for the corresponding period in 2011.

Non-GAAP net income attributable to Noah shareholders for the second quarter of 2012 was US\$7.1 million, a 24.4% decrease from the corresponding period in 2011. **Non-GAAP net margin** for the second quarter of 2012 was 37.0%, as compared to 40.1% for the corresponding period in 2011. **Non-GAAP income per diluted ADS** for the second quarter of 2012 was US\$0.12, as compared to US\$0.16 for the corresponding period in 2011.

Balance Sheet and Cash Flow

As of June 30, 2012, the Company had US\$114.6 million in cash and cash equivalents, a decrease from US\$123.1 million as of March 31, 2012. In the second quarter of 2012, the Company generated US\$7.6 million in its operating activities, received US\$8.0 million from the maturity of fixed-term deposits, invested US\$9.8 million mostly in fixed income products and used US\$0.3 million to acquire property and equipment. In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. Pursuant to U.S. GAAP, the Company recognized certain amounts of expenses for the restricted shares and share options in the periods presented and expects to incur share-based compensation charges in the future.
