THIRD QUARTER 2012 FINANCIAL RESULTS

Net Revenues

Net revenues for the third quarter of 2012 were US\$25.8 million, a 33.7% increase from the corresponding period in 2011, due to increases in both one-time commission revenues and recurring service fees for the third quarter of 2012.

Net revenues from one-time commissions for the third quarter of 2012 were US\$15.2 million, an 18.7% increase from the corresponding period in 2011. The year-over-year increase was primarily due to an increase in transaction value, partially offset by a decrease in average commission rate.

Net revenues from recurring service fees for the third quarter of 2012 were US\$10.2 million, a 57.8% increase from the corresponding period in 2011. The year-over-year increase was mainly due to the cumulative effect of private equity fund and securities investment fund products distributed previously.

Operating Margin

Operating margin for the third quarter of 2012 was 35.9%, as compared to 30.3% for the corresponding period in 2011. The year-over-year increase in operating margin for the third quarter of 2012 was primarily due to an increase in net revenues, partially offset by an increase in expenses related to the expansions of coverage network and development of the mutual fund distribution business and the overseas business.

Operating cost and expenses for the third quarter of 2012, including cost of revenues, selling expenses, G&A expenses and other operating income, were US\$16.5 million, a 22.8% increase from the corresponding period in 2011.

Cost of revenues for the third quarter of 2012 totaled US\$5.1 million, a 28.6% increase from the corresponding period in 2011. The year-over-year increase was primarily due to an increase in compensation expenses paid to relationship managers mainly as a result of an increase in transaction value.

Selling expenses for the third quarter of 2012 were US\$7.2 million, a 27.7% increase from the corresponding period in 2011. The year-over-year increase for the third quarter of 2012 was primarily due to increases in personnel expenses and rental expenses as a result of the Company's network expansions. Selling expenses as a percentage of net revenues for the third quarter of 2012 was 28.1%, as compared to 29.4% for the corresponding period in 2011.

G&A expenses for the third quarter of 2012 were US\$5.2 million, a 23.0% increase from the corresponding period in 2011. The year-over-year increase for the third quarter of 2012 was primarily due to increases in personnel expenses and share-based expenses attributable to G&A expenses as a result of the Company's expansion. G&A expenses as a percentage of net revenues for the third quarter of 2012 was 20.3%, as compared to 22.1% for the corresponding period in 2011.

Other operating income for the third quarter of 2012 was US\$1.1 million, as compared to US\$0.5 million for the corresponding period in 2011. Other operating income is government subsidies received in the PRC from local governments for general corporate purposes.

Income Tax Expenses

Income tax expenses for the third quarter of 2012 were US\$2.9 million, a 43.1% increase from the corresponding period in 2011. The year-over-year increase was primarily due to an increase in taxable income.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized certain amounts of expenses for the restricted shares and share options in the periods presented and expects to incur share-based compensation charges in the future. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
